THE UNIVERSITY OF UTAH

Dear Faculty Member,

Thank you for your interest in becoming a member of the Program in Biological Chemistry. In order to submit a complete application, you will need to follow the Faculty Applicant Guidelines. The “Faculty Applicant Guidelines” outlines the different letters and documents that are needed for your application; make sure you read through and submit the correct items for your faculty appointment description. Please note as explained in the guidelines, a letter from the department chair(s) is required for various guarantees and, in some cases, a letter from the faculty of the participating department.

All applications should be emailed directly the Program Director, Shawn Owen shawn.owen@hsc.utah.edu and Elizabeth Loertscher, eloertscher@genetics.utah.edu

The Program Steering Committee will evaluate your application. If there are any questions regarding these requirements or your current membership status, please do not hesitate to contact the Bioscience PhD Programs Office at bioscience@genetics.utah.edu or 801-581-5207.

Sincerely,

Shawn C. Owen

Shawn Owen
